

Introduction to African Drumming

Learn to play traditional West African rhythms on the djembe (a goblet-shaped hand drum). This introductory series will teach you how to play the three basic sounds, develop a sense of rhythm, and play authentic West African rhythms in a group setting. Later in the series, dunduns (bass drums played with a stick) may be introduced to complete the musical ensemble.

When:

Feb 6 - Mar 13
7:00 - 8:00pm

Where:
